linkedin.com/in/iqbal7k — github.com/iqbal700

Career Objective

Detail-oriented MERN Stack Developer with a strong foundation in JavaScript (ES6+) and React.js. Passionate to build scalable web applications and contribute to solve real-world problems through clean and efficient code

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React.js
- **Backend:** Node.js, Express.js
- **Database:** SQL, MongoDB (basic)
- **Tools:** Git, GitHub
- **Other:** REST API Integration, Responsive Web Design

Relevant Experience

Full Stack Developer (Project-Based) 2025 – Present

- Built and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed responsive and user-friendly interfaces with a focus on performance and accessibility.
- Managed version control and collaboration using Git and GitHub.

Projects

Blood Donation Website
Live Site — Client Repo — Server Repo

- Built a MERN-stack blood donation app connecting donors and recipients efficiently.
- Implemented real-time search and filter by location and blood group.
- Implemented JWT-based authentication for secure user sessions.
- Integrated Stripe for secure donations and real-time transaction responses.
- Designed a responsive UI with Tailwind CSS and DaisyUI for all devices.

Pet Care Website
Live Site — Client Repo — Server Repo

- A MERN-based web platform providing pet care services, information, and management features for pet owners.
- Dynamic frontend built with React and backend powered by Node.js and Express.
- Built a service-based platform featuring a dynamic dashboard for users to manage pet services and appointments.
- Integrated database system for storing user and service information with responsive UI.
